PIEMONTE

1

The Morando family's origins are from the Langhe, and this connection inevitably found its way into their vineyards and wines. Castiglione Tinella, hometown of the winery's founder Enrico Riccardo Morando, has about 15 hectares of the winery's vineyards, planted with Moscato d'Asti. Montalbera produces Moscato d'Asti DOCG San Carlo from these vineyards, naming it after the Church of San Carlo located just a few meters from the winery.

CAMPANIA

2

Nativ was founded in 2011, the result of the devotion of the owners Mario Ercolino and Roberta Pirone.

The name Nativ derives from the Latin "Nativus", chosen to evoke the close link between the historic vineyards and the territory.

We are in Campania, in the past identified as "Campania

Felix", precisely because of the extraordinary fertility of the soil, so much so that it has become

the land of the "wines of the emperors". What was supposed to be a family-run creature, today

is a company that has a total production of one million bottles divided between various types: Taurasi, Greco, Fiano, Falanghina and various blends.

The winery makes use of innovative and cutting-edge technological processes, both for the management of the vineyards and for the management of the new generation bottling line.

VENETO

3

Corte Sermana is located in the southern part of Lake Garda. The winery takes its name from the Sermana stream, a natural border between Veneto and Lombardy which eventually flows into the lake.

Here we grow the native Turbiana varietal for the production of the Lugana wine.

Our vineyard is located only 15 meters from the lake. The characteristics of the soil and the particular microclimate lead to the creation of wines that are extremely fine, mineral and suitable for aging.

In the heart of Val Rosandra, between the Gulf of Trieste and the Julian Alps, Vitjan founded the Sancin winery in the nineties. Ten years later, it is Devan and Alen, his sons, who take the reins of the winery and give it a renewed structure, integrating viticulture and olive growing in a unique panorama. Arouse new emotions by combining them with the knowledge that comes to us from the past, research to innovate but without forgetting the teachings of our ancestors. A mission that is evident in these ten hectares of vineyards with an international scope, where Glera, Malvasia and Vitovska, but also Refosco, Merlot and Cabernet Sauvignon are grown.

For over 80 years we have been producing quality wines, combining the traditional art of making good wine with the use of the best innovative technologies. Our headquarters are in Novoli, a town a few km from Lecce, and our vineyards from which we obtain the excellent products are between the provinces of Lecce, Brindisi and Taranto, lands suited to the large and established production of Salento wines. The Cantine De falco's production philosophy is based upon making artisanal wines with an unmistakable territorial style that must represent the excellence of our region. This is our corporate identity, That's the reason why the whole production is based upon indigenous grapes such as: Primitivo IGP Salento Rosso, Primitivo IGP Salento Rosato, Negroamaro IGP Salento, DOP Salice Negroamaro Rosato, Dop Salice Negroamaro Rosso, Susumaniello IGP Salento Rosso, Susumaniello IGP Rosato Salento, Verdeca IGP Bianco Salento.

BASILICATA

9

Tenuta Le Querce was founded by the architect Leonardo Pietrafesa in 1996 who, with the collaboration of the agronomist and oenologist prof. Leonardo Valenti of the University of Milan, took on the challenge of making a pure Aglianico of excellent quality: from here he began the work of selecting Aglianico clones from all over the South and planting new vineyards on the volcanic soil.

After almost thirty years the company continues to research ways and techniques to obtain ever greater quality.

Ours is a family business, we have been cultivating the land for generations, but only for a few years, out of passion, we have dedicated ourselves to the cultivation of vines and the production of wine.

The vineyards are located in the upper Val Squaranto, in the hills north of Verona, part of the territory of the Valpolicella denomination and a short distance from the Lessinia Regional Natural Park. The territory on which the vineyards are located is "a corner of paradise" rich in biodiversity, in which the cultivation of vines, olive trees, cherry trees, as well as meadows and woods coexist.

A FAMILY, A TERRITORY, ONE VISION.

Our name means 'a century' in English and we have learned to think about the future as an accumulation of our grape harvests. A journey across generations, together today and together tomorrow, in the vineyard and around the table. With the passing of the seasons, our organic winery has chosen to focus on the land, with our family supplying the energy.

Combined with this tradition, we use sophisticated business strategies. So our wines are distinctive for their quality and simplicity, as well as their harmony and taste. This is the basis for a family adventure which is looking to the future.

16

Today as yesterday, careful selection of grapes, traditional winemaking, balance of perceptive sensations are the cornerstones of the Mascarello Winery's activity: a few simple rules considered unalterable and necessary, despite the evolution of times and the market.

We have never stopped paying extreme attention to the harvesting, winemaking and aging processes of each wine. Maintaining the quality of traditional production methods unchanged: this is the challenge that we have been pursuing for almost a century, without compromise.

We have been producing classic Piedmontese wines since 1927. Since then four generations have followed one another in the cellar and in the vineyard, always maintaining the same attachment to the land, our land of Langa.

We would like to mark the time with a new and unique idea: the cultivation of a Glera grape vineyard surrounded by a 6 meter high erected hop grove. We should thus achieve a balance between shadow and light, bringing our prosecco to an aromatic complexity and intensity unparalleled in the DOC denomination.

Our 3 hectares of Glera grape vineyard are located within the Crak Farm: an area of fifteen hectares which will host five hectares of hop groves, forty beehives, a vegetable garden for the production of vegetables for the TapRoom and Casana premises, seven hectares for the barley cultivation, a small malthouse and a farmhouse to accommodate up to ten guests who will be able to live the experience of waking up in the midst of nature, literally a stone's throw from the vineyard and hop grove.

FRIULI-VENEZIA GIULIA

18

Zorzenone Leorino represents the legacy of a tradition. Family farming started in 1920 by his paternal grandfather and then continued by his father Leo in the 70s. Leorino makes wine with clear and scientific ideas, the first labels come out in 2018 and they are the result of a thought, an idea of tradition and valorisation of territory. The basic concepts of his work are respect for the healthy integrity of soils in order to enhance the qualities of the most representative varieties.

A vineyard with 50/60 year old plants of the Friulano variety is the little treasure of the company Zorzenone, the winemaking is calibrated to extract the maximum from these grapes potential.

The Fratelli Brunello Distillery is the oldest artisanal distillery in Italy and works with an old discontinuous low pressure and temperature boiler system; the Brunellos, in fact, know that every innovation must be subject to tradition which today must be entrusted to artisanal distillers.

As such, the Distillery considers itself the custodian of the centuries-old tradition of distillation, an integral part of the cultural heritage of Vicenza, and of Italy in general.

The Brunello Distillery can offer traditional grappas from local grapes, but also high quality grappas aged in wood.

Very valuable are single-variety grappas, i.e. those obtained from a single type of grape.

Thanks to the 5th generation, the Brunello Distillery today also offers itself in the world of mixology with aperitifs, bitters and various botanical Gins. Tradition and innovation in the oldest Italian artisan distillery.

SICILIA

24

Messenion Gin is the first London dry Gin created with Sicilian Finger Lime, also known as "lemon caviar". The finger lime, combined with the typical Sicilian botanicals, makes it a soft, fresh, fine and exclusive Gin, intended for those looking for an inimitable product. As in a perfume, we have enclosed all the scents and flavors of the Sicilian territory in a bottle.

London dry gin is by definition the finest of gins. Unlike other distillates, it does not involve the addition of artificial flavors at all. The addictive aroma of our Messenion London Dry Gin is due to the re-distillation of alcohol in traditional copper stills, fueled by wood, in the presence of natural botanical ingredients, hand-picked in Sicily.
